

MRWSA Partners with CAR HEAVEN

Car Heaven has been in the Canadian marketplace for over 10 years. To date, the program has raised over \$3.8 Million in support of our charitable partners. Car Heaven is managed by the Automotive Recyclers of Canada (ARC) association, which represents over 400 Auto Recyclers across the country (www.autorecyclers.ca). ARC members are dedicated to protecting our environment through the strict treatment of End of Life Vehicles (ELV).

The program consists of the public donating their ELV to an Authorized Auto Recycler for the proper de-pollution and recycling of that vehicle. The donor selects their Charity of choice and receives a tax receipt from the charitable organization for the amount of the post-ELV value. ARC in turn donates the proceeds of the value of the ELV to the selected Charity.
